Curriculum design

By Laura Elizabeth Hand

Use for a program, unit, or workshop.

Choose one rating per question. Leave an item blank if you need to review it later. Add notes where useful and save a copy after filling.

What did you review? Include the version.

Audience, format, or test setup

Reviewer (optional)

Review date (optional)

01 / Learner starting point

Does the plan say who the learners are and what they need to get started?

Look for what they already know, what they need to learn first, and barriers such as language, technology, or access.

Missing
No learner information.

Needs work
Names the audience but assumes they have the skills or access they need.

Meets expectations
Lists starting skills and access needs, with a way to check them.

Strong
The starting check changes the support or path learners receive.

Does not apply - give a reason in Notes.

Notes or reason (optional)

02 / Real-world task

Will learners do something they can use outside the lesson?

Look for a concrete action or product, and what successful work looks like.

Missing
Lists topics only.

Needs work
Includes an activity, but its purpose or success criteria are unclear.

Meets expectations
Defines a realistic task and how to tell if learners did it well.

Strong
Learners do the task on their own in a new situation.

Does not apply - give a reason in Notes.

Rating

Notes or reason (optional)

Curriculum design

03 / Learning sequence

Does the plan move from an example to supported practice and then independent work?

Check the order, timing, and where learners receive support.

Missing
No clear sequence or practice.

Needs work
Activities have an order, but support or timing is unclear.

Meets expectations
Models, guided practice, and independent work fit the time.

Strong
The plan anticipates common errors and shows when to remove support.

Does not apply - give a reason in Notes.

Notes or reason (optional)

04 / Practice and assessment

Does each key objective have practice and a way to check it?

Pick an objective and trace it to what learners practice and what they submit, say, or do to show it.

Missing
Objectives, practice, and checks do not connect.

Needs work
Some objectives lack practice or a matching check.

Meets expectations
Every key objective has practice and a direct check.

Strong
Sample work shows that the checks cover the skill at the right level.

Does not apply - give a reason in Notes.

05 / Feedback and revision

Can learners use feedback to improve their work?

Look for feedback tied to the criteria and time for a revision or retry.

Missing
No feedback plan.

Needs work
Feedback is planned, but learners cannot act on it.

Meets expectations
Learners get specific feedback and can revise or retry.

Strong
The team uses revisions to decide what to change in the course.

Does not apply - give a reason in Notes.

Notes or reason (optional)

06 / Facilitator handoff

Could another facilitator run the session from this plan?

Check that materials, instructions, timing, access notes, and the person who keeps them current are easy to find.

Missing
Key materials or directions are missing.

Needs work
The facilitator must infer setup or timing.

Meets expectations
Directions, materials, timing, and ownership are clear.

Strong
Another facilitator has tested the handoff and logged what to update.

Does not apply - give a reason in Notes.
